CHAPTER I · THE FOUR PILLARS

The Chart of Heaven

This is the sky at the moment you arrived — four pillars, eight characters, one life to unfold.

BORN JUNE 15, 1990 AT 2:30 PM · SHANGHAI

YEAR 年柱	MONTH 月柱	DAY 日柱	HOUR 时柱
庚 午	壬 午	辛 亥	乙 未
Yang Metal · Horse	Yang Water · Horse	Yin Metal · Pig	Yin Wood · Goat
The Rival · 劫财	The Provocateur · 伤官	Self · 日主	The Venture · 偏财

YOUR DAY MASTER

辛 **Yin Metal**

THE JEWEL

XĪN · METAL · BALANCED

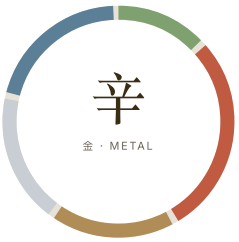

"You refine until the ordinary becomes precious."

Your Day Master stands balanced — you are neither starved nor overfull.

The character of your birth day — the grain of the wood, the nature you were born with.

YOU WERE BORN IN HIGH SUMMER, WHEN FIRE RULED THE SKY.

THE FIVE ELEMENTS

Wood 木	13.5%
Fire 火	28.7%
Earth 土	18%
Metal 金	18.8%
Water 水	21%

Not a score. A weather map — what you have in abundance, and what you must borrow.

YOUR SIGN

马 Horse

Year of the Horse

SIX HARMONY

羊 Goat

an ease that needs little explaining

TRINE

虎 Tiger · 狗 Dog

the same rhythm; silence is comfortable

CLASH

鼠 Rat

attraction and friction in one breath

HARM

牛 Ox

a slow drain; affection alone will not fix the details

Old folk correspondences. A whole chart speaks louder than a single sign.

CHAPTER II · INNER NATURE

The Shape of You

The Day Master is the seed; the elements are the weather it grew in. Between the two, a temperament takes form.

The Jewel

YIN METAL · XĪN · 辛

"You refine until the ordinary becomes precious."

Refined · Discerning · Elegant · Self-critical · Radiant

THE CORE

Yin Metal is the jewel: precise, aesthetic, quietly proud. You have an exacting eye and a taste that improves everything it touches. The shadow is perfectionism — the jewel examines itself under every light, and can polish away the very warmth that made it lovable.

> Your Day Master stands balanced — you are neither starved nor overfull.

THE WEATHER

Fire sky, thin Wood

Fire runs strong: visible, warm, quick to act. You lead by atmosphere rather than instruction, and your enthusiasm is genuinely contagious. At this volume the risk is burning the wick at both ends — intensity that cannot be sustained, and a temper that arrives before the thought.

Wood is thin in your chart: beginnings do not come naturally, and you may wait for permission longer than you should. You are not uncreative — you simply need a first step planted for you. Long projects reward you once they are under way.

AMONG OTHERS

The Commander · 七杀

You are drawn to pressure and perform best when the stakes are real. Authority sits naturally on you, though you may seize it before it is offered. Under stress, decisiveness can become domination.

WRITTEN IN YOUR CHART

CHAPTER III · THE BODY

The Body You Live In

In the old charts the body speaks first: the five elements are weather not only for the mind, but for the organs that carry it.

YOUR CONSTITUTION

Your constitution is even: no single element dictates a weakness, and you tend to notice imbalance early. The risk is complacency — a body that rarely complains gets ignored when it finally does.

YOU WERE BORN IN HIGH SUMMER, WHEN FIRE RULED THE SKY — YOUR BODY LEARNED THAT WEATHER FIRST.

THE FIVE ORGANS

A map of correspondences, not a diagnosis.

Wood 木	liver · eyes · tendons	THIN 13.5%
Fire 火	heart · blood vessels · sleep	FULL 28.7%
Earth 土	stomach · spleen · muscles	EVEN 18%
Metal 金	lungs · skin · breath	EVEN 18.8%
Water 水	kidneys · lower back · fear	EVEN 21%

WHAT RUNS THIN

Wood · 木

Your chart runs light on wood. In the body that often shows up as liver, eyes, tendons, and the kind of tiredness that sleep does not fix.

WHAT RUNS FULL

Fire · 火

When Fire runs over, the system cannot come down: insomnia, palpitations, and a mind that keeps the lights on.

DAILY CARE

SLEEP

Asleep before 23:00 — the quiet hours do the repairing.

FOOD

More greens and a little sour; less alcohol after dark.

MOVEMENT

Walk and stretch more than you lift; loosen the hips and the jaw.

Traditional five-element correspondences, offered for reflection — not medical advice. If something hurts, see a doctor.

CHAPTER IV · BONDS

Matters of the Heart

In the old charts, love lives in the palace beneath your feet — the branch of your birth day.

01 · HOW YOU LOVE

You love with generosity and appetite; you want to feed people, host them, make life abundant.

02 · WHAT YOU NEED

Warmth and play, and someone who does not take advantage of your giving.

03 · WHERE FRICTION GATHERS

You give too much too early, then feel exposed when it is not returned in kind.

04 · A PARTNER WHO SUITS YOU

Someone whose chart runs warm with Wood. They will not complete you — they will give you the weather you cannot make yourself.

桃花 Peach blossom sits in your chart — attraction arrives easily, and so do choices.

缘 The partner star is bright in your chart: relationships arrive easily, sometimes more than one at a time. The work is not finding love — it is choosing well and staying.

CHAPTER V · PROSPERITY

The Flow of Abundance

Wealth in the old texts is not only money. It is what the world willingly gives you in exchange for your nature.

YOUR MONEY TEMPERAMENT

Wealth is present and steady: you earn in proportion to effort, and you are better than most at not losing what you make. Your risk is not poverty but a quiet narrowness — a life organised around safety rather than scale.

WHERE IT COMES FROM

Steady earnings, well kept

FIELDS THAT SUIT YOU

- teaching
- publishing
- design
- medicine
- anything that grows something from nothing

WHERE IT LEAKS

Nothing dramatic: the usual slow leak of subscriptions, upgrades, and the belief that the next purchase will simplify your life.

A chart shows tendency, not a bank balance. Prices, markets and choices still belong to you.

CHAPTER VI · TIME

The Turning of Cycles

Fortune in the East moves in ten-year tides. You are not standing still; you are standing in a tide.

YOUR FIRST TIDE BEGAN AT AGE 3

3–12	13–22	23–32	33–42	43–52	53–62	63–72	73–82
辛巳	庚辰	己卯	戊寅	丁丑	丙子	乙亥	甲戌
XĪN-SÌ	GĒNG-CHÉN	JǏ-MǍO	WÙ-YÍN NOW	DĪNG-CHǑU	BǏNG-ZǏ	YǏ-HÀI	JIǍ-XŪ

THE TIDE YOU ARE IN

The decade of Wù-Yín 戊寅, ages 33–42, carries the signature of the scholar. You are nourished by learning, mentors, and being cared for. You repay the world with patience and depth. The risk is staying in the student's chair — protected, prepared, and never quite beginning.

THE NEXT FOUR YEARS

2026	丙午 BǏNG-WǓ	36 yrs	a year of order
2027	丁未 DĪNG-WÈI	37 yrs	a year of pressure
2028	戊申 WÙ-SHĒN	38 yrs	a year of learning
2029	己酉 JǏ-YǑU	39 yrs	a year of solitude

CHAPTER VII · A GENTLE WORD

A Gentle Word of Care

No chart is all light. These are not curses — they are the places where the road asks you to walk more slowly.

01

The Wood you carry least

Your chart runs light on wood. In the body that often shows up as liver, eyes, tendons, and the kind of tiredness that sleep does not fix. In a life, it shows up as the thing you keep postponing because it does not come naturally.

THE PRACTICE

One long project instead of five new ones; walk among actual trees; go to bed before midnight.

02

The weight you were not meant to carry

Pressure is a familiar room for you, and you have learned to perform inside it. But a chart this heavy on the Commander tends to confuse survival with purpose: you keep choosing the harder road because ease feels unearned.

THE PRACTICE

Before you accept the next heavy thing, wait one full day. If it is still yours to carry, carry it; if it was only urgent, let it pass.

"Forewarned is not fated. The chart describes the weather; you still choose the coat."

CHAPTER VIII · THE WHOLE

The Scroll of You

One page, in plain words.

Seeker, you are the jewel — you refine until the ordinary becomes precious. The proportions are unusually even: you are neither starved of self nor overfull of it. In love, you need warmth and play, and someone who does not take advantage of your giving. Financially, expect steady earnings, well kept. In the body, wood runs thin — liver, eyes and tendons. Asleep before 23:00 — the quiet hours do the repairing.
